OBJECTIVES

Motivated Computer Science Engineering student with strong foundations in Data Structures, Java, and web development, seeking an entry-level software developer role to build scalable applications and contribute to innovative solutions.

EDUCATION

UG | GH Raisoni College of Engineering, Nagpur	2028	8.8
SC | Nanaji Joshi Jr Collage, Shahpur	2024	77%
SSC | Vishwamegh Vidyalaya ,Dharmapuri	2022	87%

TECHNICAL SKILLS

Programming language : Java, C/C++, Html, CSS, Javascript

Web Development : Node.js, React,js,Tailwind

Tools : VS Code, Git/Github

Skills :Data Structures And Algorithems

PROJECTS

Smart Movie Explorer

Problem: Users struggle to find movies matching their taste, unable to find appropriate

rating ,storylines

Responsibilities: Research on API's , learned react js and self-deployed the project to git.

Tech: react. js , TMDB API , html, tailwindcss , javascript

Deployed on: GitHub

Skill Swap Platform

Problem: Many students and freelancers struggle to learn new skills due to high course costs and lack of peer learning platforms that enable safe and structured skill exchange.

Responsibilities: Researched peer-to-peer learning models, designed user authentication and profile systems, implemented real-time matching and chat features, built a responsive UI, and deployed the application using Firebase and modern web tools.

Tech: React.js, Firebase (Authentication & Firestore), JavaScript, TailwindCSS, REST APIs

EXTRA CURRICULAR

Practicing Data Structures and Algorithms regularly on platforms like LeetCode, GeeksforGeeks to strengthen problem-solving and coding skills.
